Who We Are

Nutmeg Consulting specializes in providing high-quality Information Technology and Consulting services to small businesses and not-for-profit organizations across Connecticut, Rhode Island, and Massachusetts. We implement solutions that work so you can spend your time growing your business instead of troubleshooting your business.

What We Do

We understand that technology is constantly evolving and in order to stay ahead of your competition and best serve your customers, your business needs to evolve as well. Unlike other consulting firms who only fix today's problem, Nutmeg Consulting offers comprehensive business analysis and technology solutions to not only solve the issue you have today, but to foresee and correct potential issues in the future.

How We Do It

From standardizing desktops to storing data, securing your current network to designing your next, Nutmeg Consulting uses its 20+ years of industry experience aligned with the principles of Six Sigma Lean Management to ensure that we deliver products and services that give your business the edge it needs to compete. Nutmeg Consulting's goal is to drive your costs down by standardizing your processes and designing systems that will keep your business running trim, so you can focus on the growth of your organization.

OUR AREAS OF EXPERTISE INCLUDE:

Process

Helping you **Plan, Design** and **Implement** streamlined business solutions.

Desktops

Standardizing on hardware and software reduces overall support costs.

Networks

Including: design and implementation, user authentication, web content filtering, network monitoring, updated virus protection, VPNs.

Security
